DOMAINE DUROCHÉ

PROPRIÉTAIRE - VITICULTEUR

2023

VINTAGE

This season was more of a classic, as everything occurred in good conditions. After three years of small yields, the vines finally produced an abundant harvest with nice yields. The flowering began on the 5 th of June. The August rains allowed the vines to replenish, avoiding hydric stress. September's sun and heat gave forth to a nice phenolic maturity. The 2023 wines are quite harmonious with a well-defined notion of terroir. They are structured with elegance, freshness, all while showing their floral and fruity notes.
